

STRATEGY - HEALTH, SAFETY AND WORKING ENVIRONMENT (HSE) AT STATSBYGG

01
02

Everyone shall return home from work unharmed

STRATEGY

Statsbygg:

- Will carry out safe and secure projects with a high level of transparency, and sustain a culture of discussing unwanted occurrences amongst employees.
- Will be an attractive construction and project management for serious businesses.
- Shall assess and manage all risks relevant to HSE conditions.
- Has both managers and employees whom actively take responsibility for HSE.

03

DESIRED REPUTATION

Statsbygg shall be a role model in the building, construction, and property industries, and be a guidance in inquires related to safety, health and working environment.

04

FOCUS AREAS

Leadership

ASPIRATIONS

Statsbygg has decisive leaders who specify requirements and set a high standard for our HSE work.

Expertise

Everyone in Statsbygg's projects with responsibility for HSE has attained competence to provide expertise in their projects.

Culture

At Statsbygg, everyone takes responsibility for his or her own safety, as well as the safety of others. We are informative about incidents to ensure a learning community.

05

OBJECTIVES AND ACTION PLANS

06

As one of Norway's leading construction managers, Statsbygg takes responsibility for the safety, health and working environment. We have high expectations for our suppliers and ourselves. To improve our achievements in safety, health and working environment, all those involved in our project must cooperate and commit to our projects. We are open about our occurrences. This will help us take action in order to prevent future accidents, learn from past events and save lives. We record and investigate all near-accidents, and implement necessary measures to ensure accident-free construction sites.

We build a coherent and strong workplace safety culture by supplementing our words with action.

Our customers, suppliers and partners shall know that Statsbygg always puts HSE first, and that we are aware of our responsibility. The 'Golden Helmet' is a prestigious honour here at Statsbygg, and awarded to the construction site with the best HSE work. We wish to lead a path in safety, health and working environment by planning for and identify dangers early, and learn from past occurrences.

With kind regards,
Harald Vaagaasar Nikolaisen
CEO
